

## Feb. 15 Data Challenge Agenda

Feb 15	Description	Presenter
10 AM - 12 PM	<p><b>Storytelling through the Lens of Space (Part 1)</b></p> <p>Join us in learning more about your Planet access, Planet’s web applications and visualization tools! All you need is your laptop!</p> <p>In this session we will introduce you to Planet’s revolutionary satellite constellations and the power of our near-daily archive. We will take a deep dive into our web application, Planet Explorer and demonstrate the capabilities of viewing, visualizing, and ordering imagery all within the web browser. We will also walk you through one of our favorite visualization tools in Planet Stories, where you can instantly create a timelapse of events around the world. We will leave plenty of time for discussion, so bring questions for the Planet team and take advantage of your Planet access.</p>	Austin Stone (Planet)
12 - 1:30 PM	Lunch Break	
2 - 3 PM	<p><b>Storytelling through the Lens of Space (Part 2)</b></p>	Chippie Kislik (Planet)
2 - 4 PM	Advanced Session	Sam Roy & Tyson Swetnam (University of Arizona)
3 - 5 PM	Office Hours
